September 2018

Dear Parent/Carer

Year 7 Science Fun Evening

The Downlands Science department would like to invite you to a Year 7 Science Family Fun Evening, full of activities, competitions and a chance for the whole family to get involved. This will take place on *Thursday 20 September from 5:45pm – 7:45pm*.

The event will be played in teams, *which must include at least one Year 7 student and one adult*. The other members of the team can be adults, students from other year groups, brothers, sisters and grandparents - you decide, **no more than five members in one team!** If you are less than five don't worry, let us know and we can team you up with other small groups.

There will be several activities during the event, a quiz and construction challenge. During the evening hot (pizza/hot dogs) and cold refreshments will be available for a small cost, with cash required for purchase.

Tickets are £2.50 a head and can be bought via the online payment system, which is our preferred method. Alternatively, you can send cash or cheques in a clearly marked envelope with your child who can put this in the Trips Box at reception. Final purchase date is Wednesday 19 September.

Tickets can be collected from the Science Technicians in the Science Department on proof of payment, such as a printed copy or photo on a phone of the online payment receipt (for cash or cheque payments, our finance department will pass on to us proof of payment).

Yours faithfully

Mr M. Lowe
KS3 Science Co-ordinator
