May 2019

Dear Parent/Carer

### Year 7 Mathematics

I am writing to inform you about the end of year Mathematics assessment that your daughter/son will be completing shortly after half term. This assessment will cover everything that has been covered in lessons so far and therefore give a real insight into your daughter/son's progress over the year.

The Year 7 assessment will be completed during Mathematics lessons on either Wednesday 5 June or Thursday 6 June (depending on which day your daughter/son has maths). This assessment will be non-calculator but students will **require a pen, pencil, ruler and protractor**. Please ensure that they come to school prepared on that day.

Attached, please find a revision list, which has links to revision resources that the students should complete to help feel ready for the assessment. For the most part this links to documents on a website where you can click to get to a video to help explain anything that is not clear. Answers are included at the bottom of the worksheets.

The revision list itself is very long (as it covers everything across the whole year) so please urge your daughter/son to pick up to 15 topics that they feel require the most revision. If your daughter/son is unsure which revision list is applicable, please check their class code on the SIMS app.

Thank you for your support in preparing your daughter/son for their end of year Mathematics assessment.

Yours faithfully

Mr R Roberts  
KS3 Coordinator in Mathematics
