May 2019

Dear Parent/Carer

Year 8 Mathematics

I am writing to inform you about the end of year Mathematics assessment that your child will be completing shortly after half term. This assessment will cover everything that has been covered in lessons so far and therefore give a real insight into your child's progress over the year.

The Year 8 assessment will be completed during Mathematics lessons on Monday 10 June. This assessment will require students to have a **calculator** as well as a **pen, pencil, ruler and protractor**. Please ensure that they come to school prepared on that day.

Attached, please find a revision list, which has links to revision resources that the students should complete to help feel ready for the assessment. For the most part this links to documents on a website where you can click to get to a video to help explain anything that is not clear.

The revision list itself is very long (as it covers everything across the whole year) so please urge your child to pick up to 15 topics that they feel require the most revision.

Thank you for your support in preparing your child for their end of year Mathematics assessment.

Yours faithfully

Mr R Roberts
KS3 Coordinator in Mathematics
