Dear Parent/Carer of Year 10 students

I hope you and your family are well.

As you may be aware, the government have asked schools to plan for Year 10 students to have 'some face to face support' in school from Monday 1 June. I am writing to update you on our initial response to this guidance.

Firstly, a reminder that all plans to open the school for more students are dependent on the rate of infection (R) continuing to fall, or at least remaining stable. Please also be reassured that the safety of our community is our highest priority and that we are working on our risk assessments to ensure that students and staff are safe whilst on site.

Our current plans are to increase the number of Year 10 students on site from Monday 1 June, initially for a limited number of students. We plan to contact families of these students this week to provide details of the provision. In the meantime all students should continue to engage with the important GCSE work set by their teachers on a day to day basis.

I am expecting a further government announcement on or around 28 May relating to extending on site provision for larger numbers of Year 10 students. I will write to you again following this announcement with more details of our response.

In the meantime, many thanks for your continued support and please don't hesitate to contact me if you have any queries.

Yours faithfully

Mr M Wignall
Headteacher
