Dear Parent/Carer,

Year 7 – Forest School Experience

To give our new students a more immersive experience of our Forest School programme, I will lead a day of team building and bonding for each tutor group. Forest School has five key objectives: Independence, Self-discovery, Confidence, Communication, Self-esteem. We develop these through bush craft skills and the day will consist of fire lighting, shelter building, lots of fun games and competition. The children will be supervised at all times and the day runs during normal school hours, on the school site.
