

College Applications for 2026 entry are now open

All local colleges have now opened their application system for entry in September 2026 apart from Collyers which is opening their forms as of 10th November

- Visit colleges in person before applying if at all possible
- Students need to apply directly to the college via their website.
- Double check the entry requirement for each course you are applying to, so your application does not get rejected
- You will need to have a personal email address to create an account, your parent/carer details & your predicted grades from your school report
- Remember it is better to apply to more than 1 college so you have choices
- You cannot apply to both Varndean and BHASVIC – the system will know if you try
- Apply to a college even if you think you are going to undertake an apprenticeship
- Priority deadline for Varndean/BHASVIC applications is Friday 5th December
- Try to get all applications submitted before we break for Christmas.
- See Ms Hollingdale if you need any help with applying
