

09 February 2026

Dear Parents/Carers,

With the second mock examination period fast approaching, I thought it might be useful to share some links and resources to support revision at home. The attached PDF is a collection of sessions we ran during tutor times last term and sets out the most effective revision techniques, with some examples.

Further to this, we have a partnership with Action Your Potential which allows parents/carers to access various resources to support students as they prepare for exams. I have listed these below:

[Action Your Potential's](#) #NeuroNinja programme.
#NeuroNinja Learning Hub - [click here to sign up](#).

[Build a #NeuroNinja Year 11](#) - Click here once you have a #NeuroNinja Hub Log in
[Study Habits and Study Reps](#) - Click once you have logged onto the #NeuroNinja Hub
[Surviving and Thriving in Your GCSEs](#) - Click once you have logged onto the #NeuroNinja Hub

[Study Capture sheet](#). They just need to copy or download this sheet to get started on the Study Capture process.

Students should have received a personalised mock examination timetable giving details of their exams, but for clarity, the mocks will take place during the first two school weeks after half-term.

Thank you for all your continued support.

Yours sincerely,
Chris Runeckles
Deputy Headteacher
Downlands Community School
